

General Properties

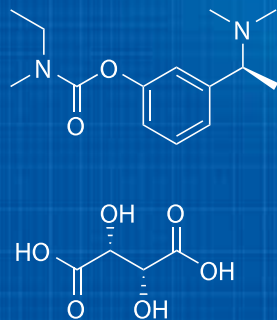

International nonproprietary name (INN)
Rivastigmine Tartrate

IUPAC name
3-[(1S)-1-(Dimethylamino)ethyl]phenyl ethyl(methyl)carbamate hydrogen (2R,3R)-2,3- dihydroxybutanedioate.

Cas registry No.
129101-54-8

indication
Treatment of Alzheimer's disease

structure

Rivastigmine IR 2% Pellets (USP)

Physical form and appearance White or off white, spherical pellets.

Physical state solid

Form pellet

Molecular weight 400.4

Molecular formula $C_{18}H_{28}N_2O_8$

Identification Specific optical rotation
Infrared absorption spectrophotometry

Mesh siz 16#25

dissolution 30 minutes

Storage In an airtight container, protected from light
